

## Dow Jones Industrial Average (DJI)

*Time Frame: 30 minutes*

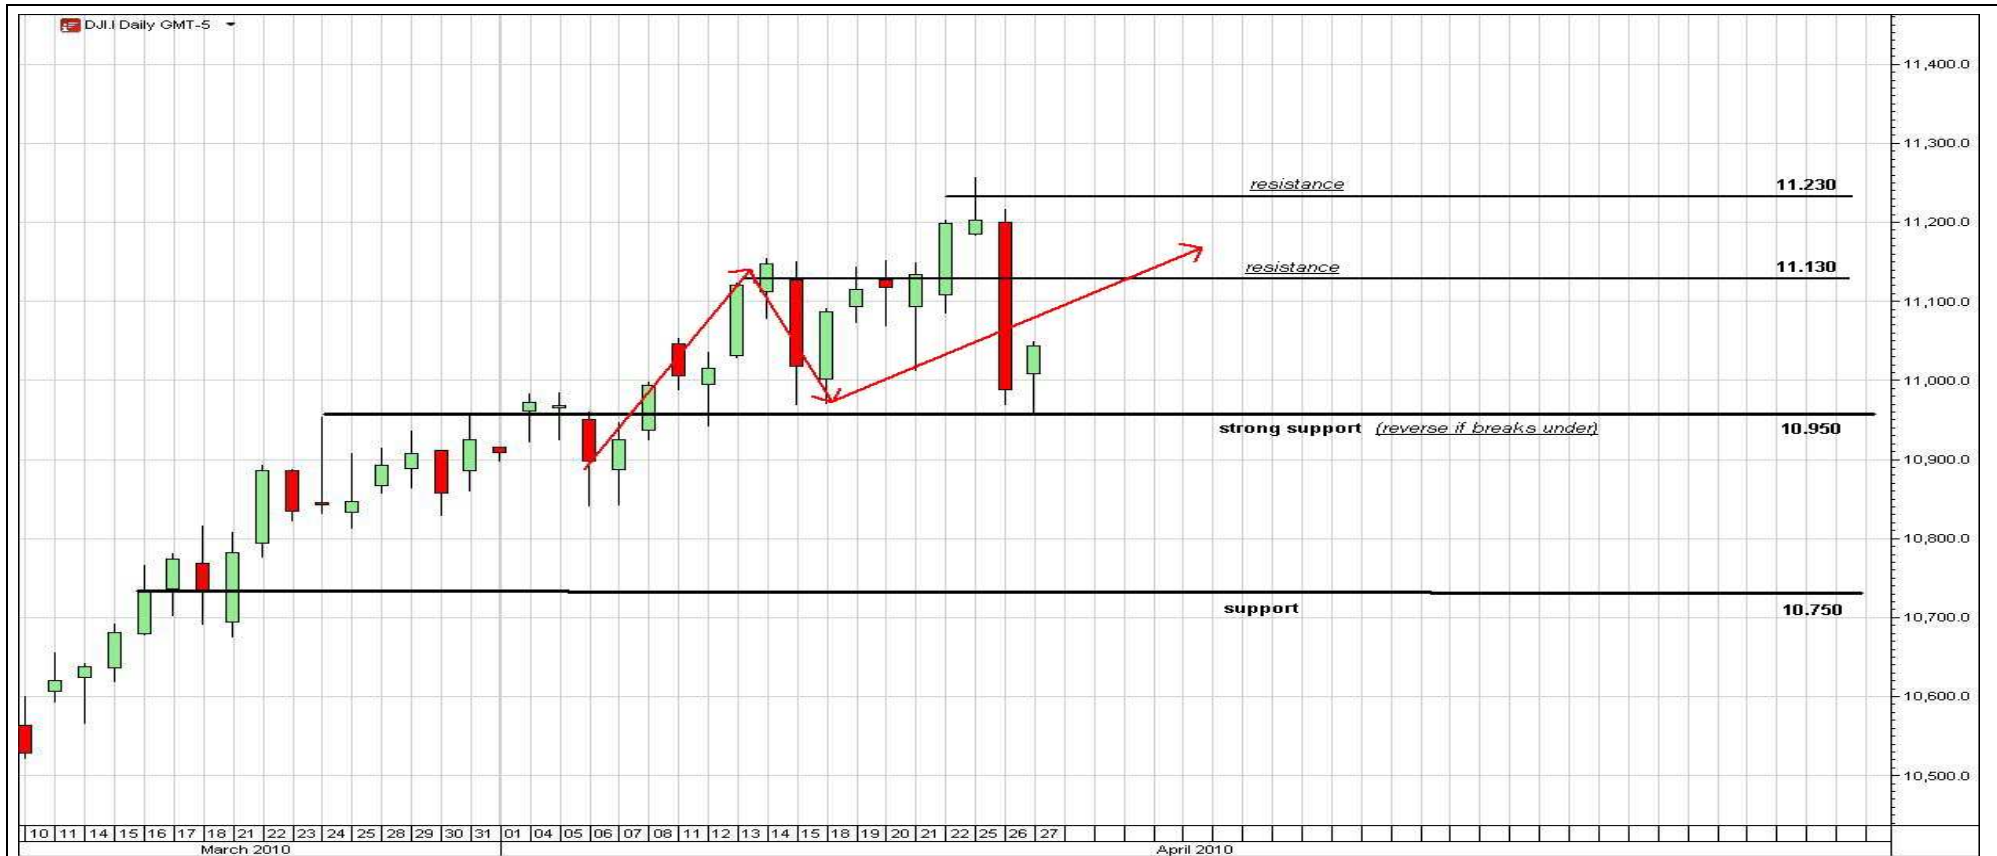

### Today's Description

With red arrows is presented our prediction for today!

In the first hours some upward moves can develop. We have little long signals which can move the market near our resistance from 11.130. After that expect to see again some downward moves. The sentiment can change and a fall of 50-75 points profit can be possible. Strong reversal point is 10.950.

## Dow Jones Industrial Average (DJI)

*Time Frame: DAY*

### Today's Description

With red arrows is presented our prediction for next days!

DOW brooked 11.130 and went step by step to our target from 11.230.

Now, the volatility raised and we see chances for some fluctuations between 10.950 and 10.230. Any break under our support from 10.950 is a strong signal to short the market.
