Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

DOW brooked 11.130 and went step by step to our target from 11.230.

Now, the volatility raised and we see chances for some fluctuations between 10.950 and 10.230. Any break under our support from 10.950 is a strong signal to short the market.
