Today's Description

With red arrows is presented our prediction for next days!

We saw for a week that indecision move near 10.900...

Now it seems that Dow is trying to break the resistance. For some days (2-3) the downward moves can still move the price down to our support from 10.830. After that again upward moves can come back and move the price to 11.000 and even more.
