Time Frame: 30 minutes

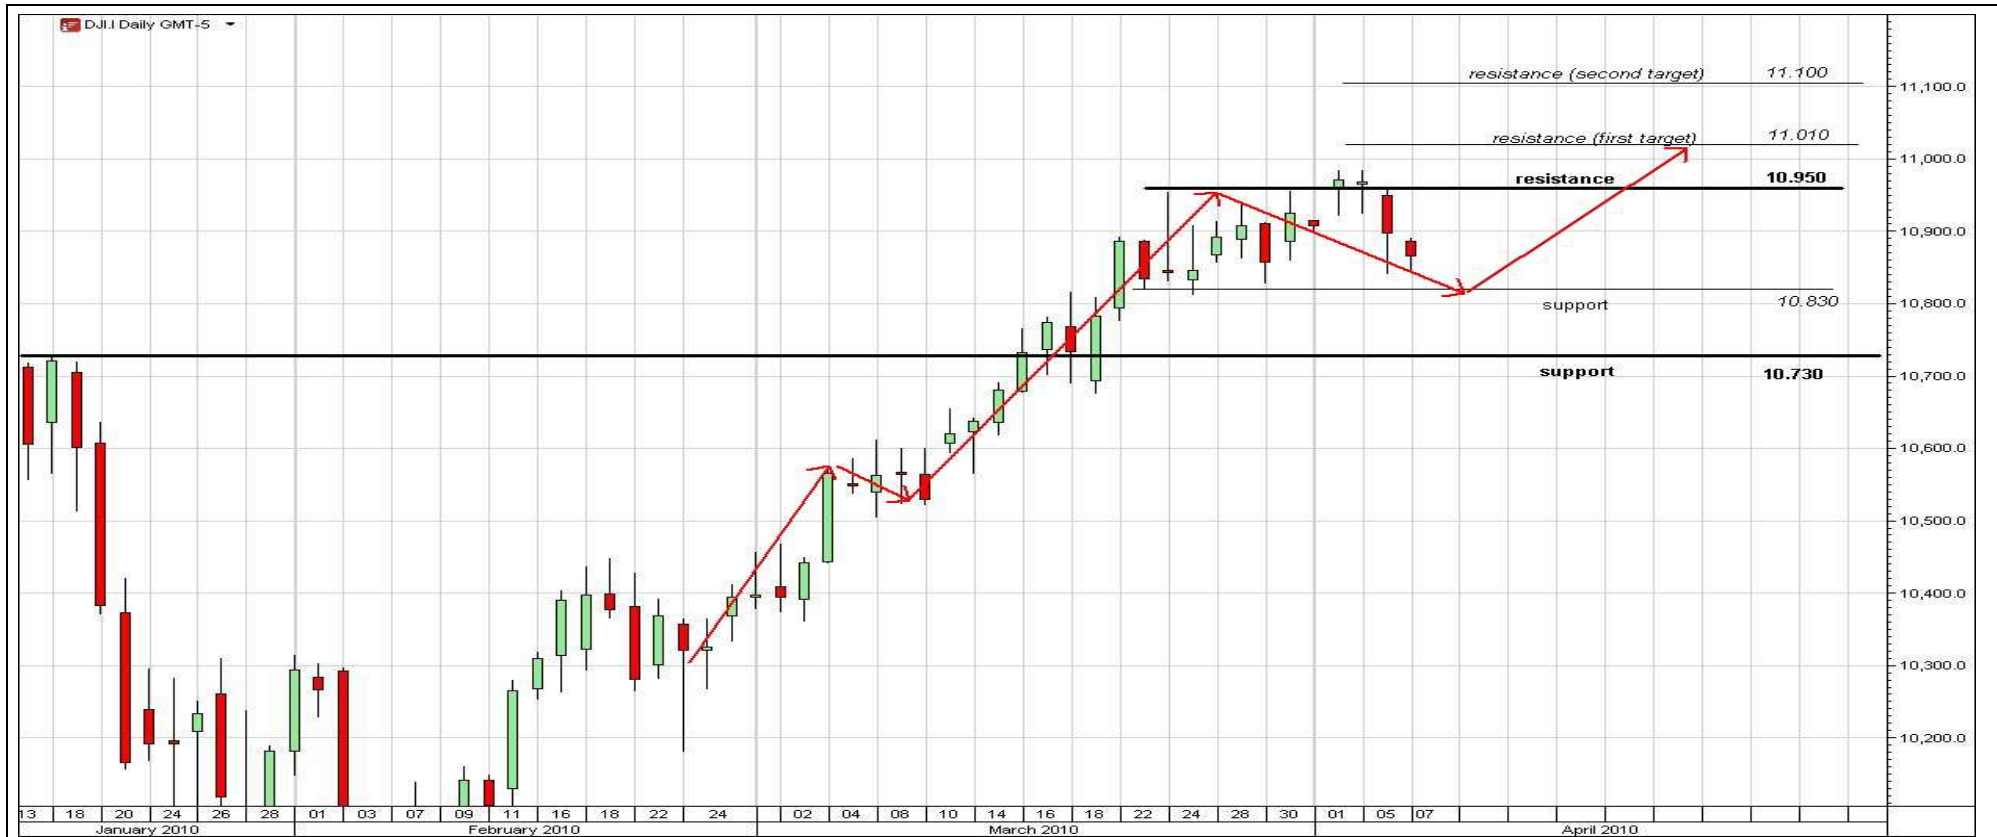

Today's Description

With red arrows is presented our prediction for today!

For today's live session expect some accumulation between 10.800 – 10.900. Some tentative to break under our support can develop too. If manages to close under it then some little short trades can be open. But the all picture is for some up and down moves in this interval.

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

We saw for a week that indecision move near 10.900...

Now it seems that Dow is trying to break the resistance. For some days (2-3) the downward moves can still move the price down to our support from 10.830. After that again upward moves can come back and move the price to 11.000 and even more.
