Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

Again, DOW is near our strong resistance from 10.950. For today the sentiment is still positive and more upward moves can develop. So, some accumulation near our pivot line with tentatives to go to 11.010 should be expected for today's live session.

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

We saw for a week that indecision move near 10.900...

Now it seems that Dow is trying to break the resistance. For some days (2-3) the downward moves can still move the price down to our support from 10.830. After that again upward moves can come back and move the price to 11.000 and even more.
