Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

Under the level from 10.000 is our short area... Consider only short trades with first target at 9.920 and second target at 9.850. During today's live session we can expect to see some fluctuations under this level from 10.000 possible to our first target...

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

(Feedback: We saw some downward moves to ALL our targets from 10.360, 10.270, and 10.180 exactly like we said!)

From the next three days expect some low volatility, possible some accumulation days... The little interval to accumulate in is between 10.180 – 10.270... The bigger one is between 10.075 – 10.360. So, expect some little downward and upward moves in this zone... Trade in concordance!
