Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

(Feedback: We saw some downward moves to our support from 10.000 followed by little upward moves!)

For the next two days look for some fluctuations between 10.000 and 10.180... Dow can try to reach our resistance first and move down after that again to our "significant support".
