Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

For today nothing special or extraordinary should appear... Again we have a strong support between 9.900 and 9.950. Support is at 10.110 and had been tested yesterday...

During live session expect some up and down moves between 10.000 and 10.100. During last part of the session and especially in electronic session some significant downward moves can develop (of 50-100 pips)...

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

Like we said, Dow managed to retest our resistance from 10.110 and retreat instantly after that...

A little accumulation between 9.900 and 10.100 is to be expected. Any break of these levels is an opportunity to go with the market!
