## Dow Jones Industrial Average (DJI)

*Time Frame: 30 minutes*

### Today's Description

With red arrows is presented our prediction for today!

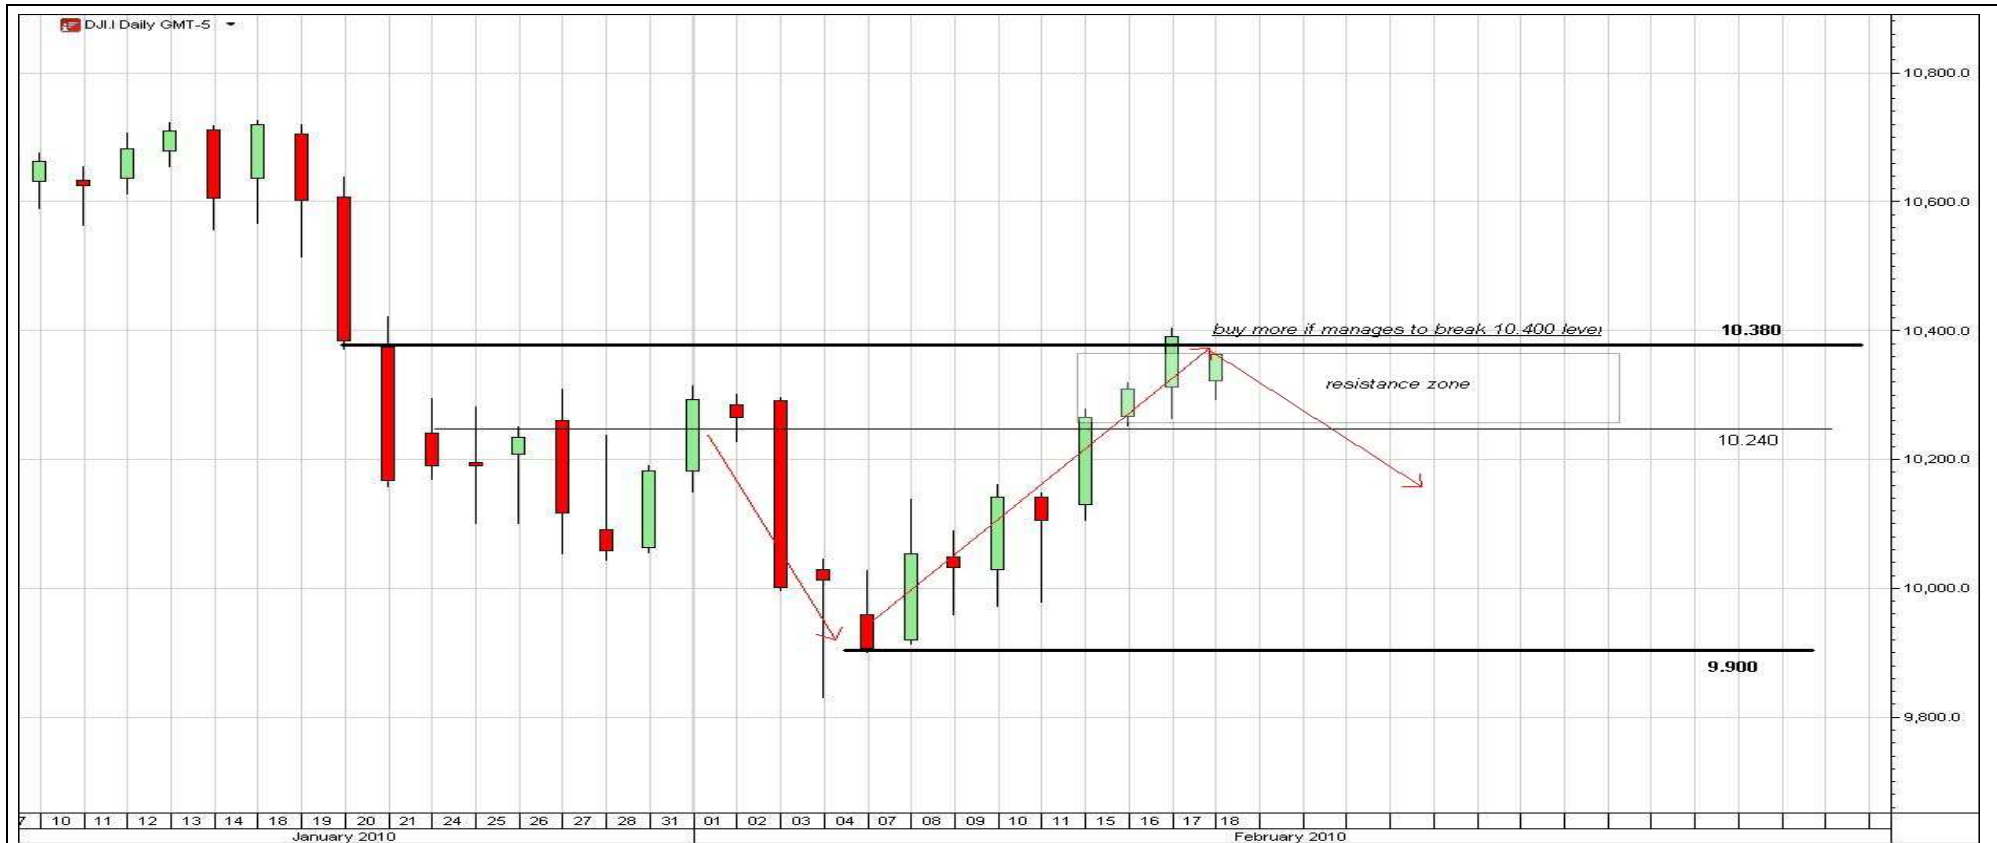

Look for a retest of the highs made yesterday... After that, some declines to our first support are possible. In the last hours some little upward moves are again very probable.

If during the live session Dow manages to break 10.400 then look for quick long trades for 40-50 pips profit.

Resistance zone for today is between 10.400-10.350. Strong support is at 10.300.
