Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

Expect to see a rising market in the first hours of the session. Resistances are at 10.070 and 10.110. Any break of the 10.110 is an opportunity to buy more...
 After that, some downward moves can appear especially in electronic session. A break under of 9.950 is a sign not to consider long trades anymore. Just look for quick short trades with 9.850 target.
