Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

For today look for some fluctuation between 10.610 and 10.730 with little up and down moves. Trade any break of the resistance and expect 30-40 pips profit...

10.610 is a very strong support and it should hold for now...
