

## Dow Jones Industrial Average (DJI)

*Time Frame: 30 minutes*

### Today's Description

With red arrows is presented our prediction for today!

A good interval where Dow should evolve today is 10.560 – 10.670 with 10.610 pivot line... Above pivot line consider only long trades... During today's live session we should see some retest of this support zone followed by some upward moves...
