

Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

Again we have 10.610 to be a strong level... Today it is support. Dow should evolve between 10.730 – 10.610 with some significant tentatives to break the support (next good targets are 10.560 and 10.500).

With red arrows is presented our prediction for today!

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

First target was 10.610... it had been hit.

Now, Dow brooked it and it is heading to our next target from 10.810 (after a little accumulation between 10.500 and 10.610). It seems that it stopped around 10.730 and now it is pulling back to support (10.500).
