## Dow Jones Industrial Average (DJI)

*Time Frame: 30 minutes*

### Today's Description

With red arrows is presented our prediction for today!

Now we are in our accumulation zone between 10.500 and 10.220... Both support and resistance should hold at least one time... Some support we see at 10.330 and a resistance at 10.420. During today's session look for another downward move in the first part and some recovery latter in the day.

## Dow Jones Industrial Average (DJI)

Time Frame: DAY

### Today's Description

With red arrows is presented our prediction for next days!

It already touched 10.500 (like we said) and now is trying again to reach it... A fall under it will represent that Dow will enter again in our past accumulation zone.

Now Dow is in our accumulation zone, so expect for up and down move in this zone... At least for 1-2 days support should hold so buy near support and sell near resistance with close stop loss.
