## Dow Jones Industrial Average (DJI)

*Time Frame: DAY*

### Today's Description

With red arrows is presented our prediction for next days!

Now Dow is in our accumulation zone (10.500 – 10.110), so expect for up and down move in this zone... It already tested the support and pulled back very fast. A recovery from here should be expected.

**A recovery back to 10.240 and more is very possible right now.**
