

Our prediction:

What really happened:

Our comments

We wrote yesterday: *"For today's morning and latter in the day we have some short signals....only in between (11:00 – 14:00) DOW can try to recover a little beat... The signals are not very big so look to short the market only under our support from 10.360 with stop loss above the high (10.420-10.430)."* **AGAIN, PERFECT FORECAST! +75 points profit**
