Today's Description

With red arrows is presented our prediction for today!

Again some positive moves should develop during today's live session – especially during first part of it...

Now we are near a strong resistance from 10.360 but, a break above it will represent a good opportunity to “go with the market”...

Strong support and a good place to set a stop loss is under 10.270.

Today's Description

With red arrows is presented our prediction for next days!

(Feedback: We saw swing trades near our pivot line from 10.270...)

For the next days we are expecting some swing moves between 10.000 and 10.360...Look to buy near support and sell near resistance. Also be very careful at 10.000. A break under it is an opportunity to sell the market.
