

**Dow Jones Industrial Average (DJI)**

*Time Frame: 30 minutes*

**Today's Description**

With red arrows is presented our prediction for today!

For today's live session we see some optimism in the markets for the first part of the session. Possible DOW will try to go to our next resistance from 9.850. If it will hold (and very possible will do so), we'll see some downward moves after that, back under our pivot line for today.

## Dow Jones Industrial Average (DJI)

*Time Frame: DAY*

### Today's Description

With red arrows is presented our prediction for next days!

*(Feedback: We saw a local top near 10.600 and declines after that, exactly like we forecasted!)*

A little positive sentiment is to be expected for the next 1-2 days but the bear market should resume after that. We have a significant resistances at 9.850 and 10.000 (in this zone DOW should stop). Supports are at 9.640 and 9.500.
