Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

For today we don't have strong signals to move the markets...Again we should see more accumulation near the level from 10.000 points. You can consider buying near 9.900 and selling from 10.100 with 70-80 points target.

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

(Feedback: During Monday we saw strong declines and Tuesday strong recoveries...After that some little downward moves we saw too... Everything exactly like we forecasted!)

For the next days look for some recoveries back to our resistance from 10.270... After that again downward moves can resume.
