Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

After a fall in the second part of the session we can expect a quite market, with some accumulation between 10.180 and 10.000 levels. A break of this levels will be a good opportunity to "go with the market" for 50-70 points profit!

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

(Feedback: During Monday we saw strong declines and Tuesday strong recoveries...After that some little downward moves we saw too... Everything exactly like we forecasted!)

For the next days look for some recoveries back to our resistance from 10.270... After that again downward moves can resume.
