Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

Regarding today's live session we have some signals for a positive market... So, buying lows and selling above 10.270 should bring some good profits for today...

Reverse and try quick short trades only if DOW manages to break under 10.180!

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

(Feedback: During last two days we saw recoveries back to our resistance from 10.270...exactly like we expected)

For the next three days you should expect to see more upward moves above 10.270...A significant resistance (and target) is 10.500. After that the market can move down again.
