

Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

Look for some downward moves in the second part of the session after some accumulation in 10.000 – 10.180 area. A break under 10.000 is a significant invitation to short the market, again!

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

(Feedback: During last week we saw, exactly like we expected, some accumulation between 10.000 and 10.200)

During this week some upward moves above 10.270 are possible... Strong resistances are at 10.270 and 10.500. More downward moves after that are still to be expected!
