Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

Until now we already saw a significant part of the downward move expected for today. Next strong support is 10.000 (under it again panic can establish!).

During today's session we can see a little recovery but more downward moves should develop.

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

(Feedback: During last week we saw, exactly like we expected, some accumulation between 10.000 and 10.200)

During this week some upward moves above 10.270 are possible... Strong resistances are at 10.270 and 10.500. More downward moves after that are still to be expected! Consider selling more under 10.000 level.
