Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

Again some fluctuation between 10.950 and 10.830 are to be expected for today's live session. Some upward moves in the first part followed by a fall maybe to our first support from the image.

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

Exactly like we forecasted, our targets from 10.730, 10.830 and 10.950 had been hit!

For the next days a little indecision in the market is to be expected... After this strong upward move, a little downward market can be seen... But until it will decide to do so we can see some ups/downs moves near the level from 10.900 (under 11.000). After that, we can see some downward moves o 10.730 and maybe more to 10.460.
