

Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

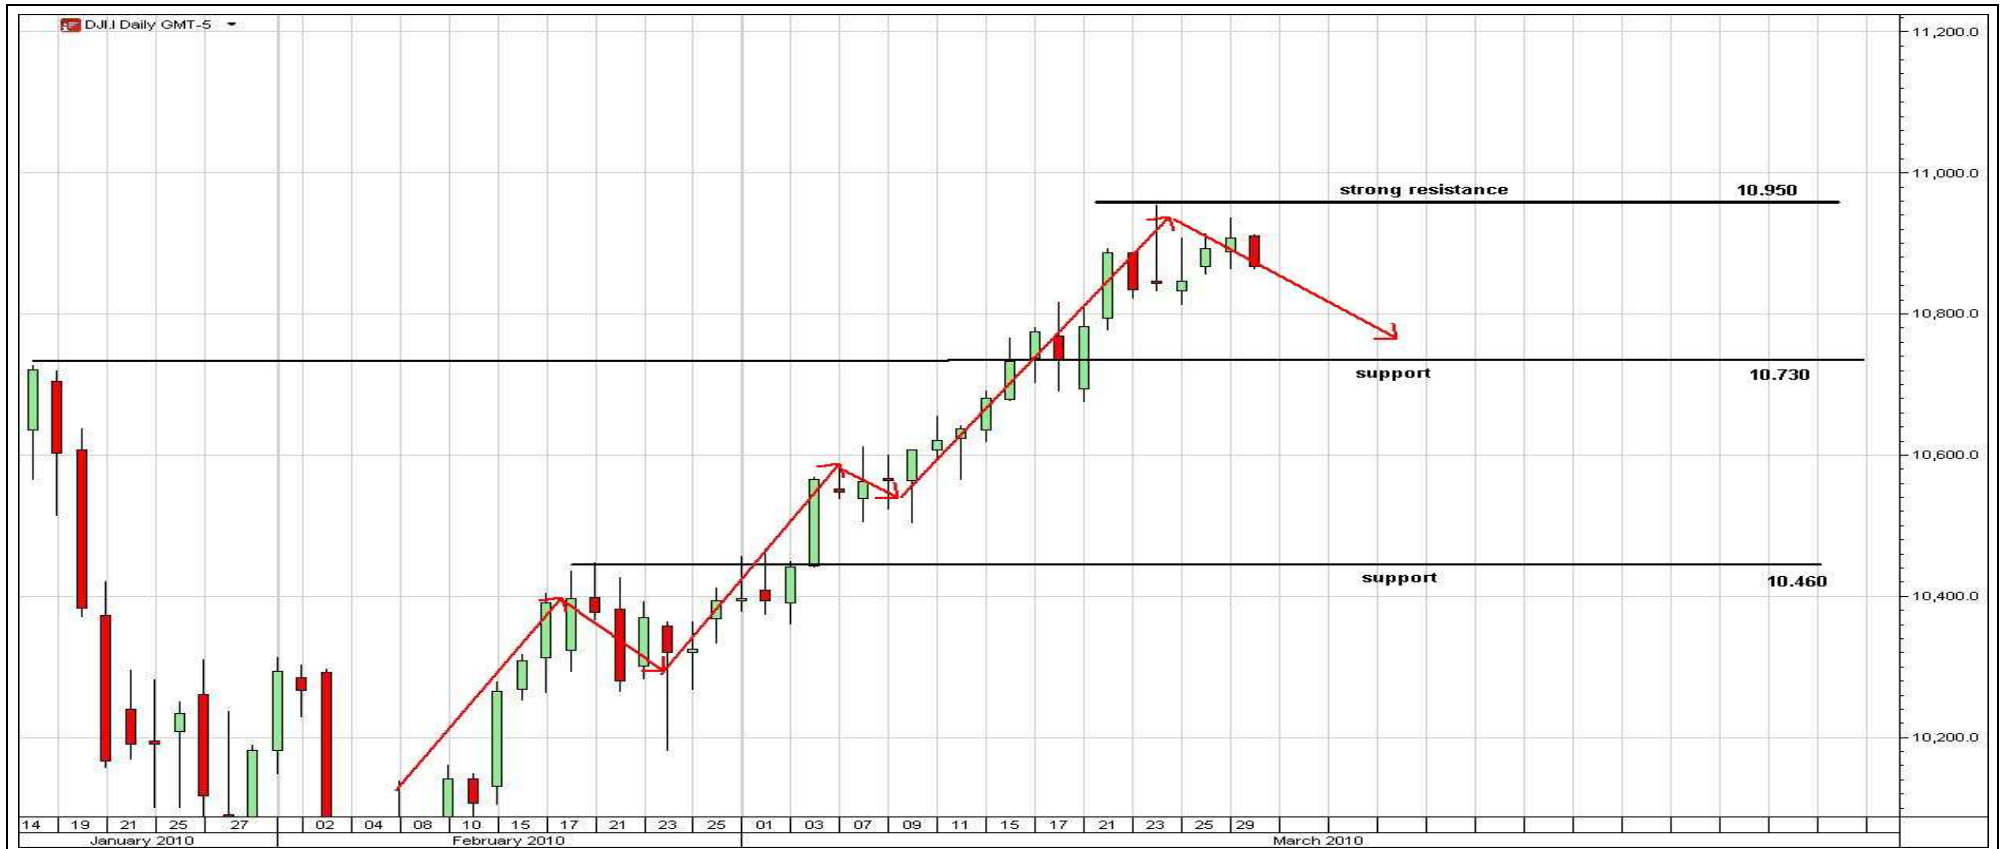

Today's Description

With red arrows is presented our prediction for today!

Again, we can see some developments in our interval (10.830-10.950). Some short signals appear to be important during today's session. Look to sell more when Dow manages to break fewer than 10.830... Reverse only if it will break and close above our strong resistance.

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

Exactly like we forecasted, our targets from 10.730, 10.830 and 10.950 had been hit!

For the next days a little indecision in the market is to be expected... After this strong upward move, a little downward market can be seen... But until it will decide to do so we can see some ups/downs moves near the level from 10.900 (under 11.000). After that, we can see some downward moves o 10.730 and maybe more to 10.460.
