

Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

**Today's Description**

With red arrows is presented our prediction for today!

During all night Dow managed to recover a significant part from the fall. Now, from our point of view DOW has a strong resistance at 10.840 and a pivot line for today at 10.670.

During today's live session we can expect to see some downward moves under 10.670. A recovery back is possible but in the end and in electronic session we can see again downward moves.
