Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

For the first part of the session we can expect to see more downward moves triggered by stop losses. After that we think that Dow will try to recovery a little beat from this dip fall.

A significant resistance is at 10.000 and we didn't expect from it to be crossed.

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

(Feedback: From 10.950 we saw very strong declines, exactly like we looked for! All our targets from 10.670, 10.400, 10.000 and 9.850 had been hit!)

During next days the strong negative sentiment will not disappear. We can expect to see a little recovery back to 10.000 points but main direction is still down!
