Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

For today we see signs for an accumulation market between 10.200 and 10.000 points. Especially in the afternoon (and electronic session) we can expect for more downward moves.

A break above 10.200 will be a sign that the sentiment changed and you should expect for higher highs.

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

(Feedback: From 10.950 we saw very strong declines, exactly like we looked for! All our targets from 10.670, 10.400, 10.000 and 9.850 had been hit!)

During next days the strong negative sentiment will not disappear. We can expect to see a little recovery back to 10.200-10.300 points but main direction is still down!
