

Our prediction:

What really happened:

Our comments

We expected a narrow fluctuation between 7900 – 8100. Look at what happened an imagine what perfect trades could have make... LONG for 8100, SHORT for 7900 and LONG again for 8000. +150 pips profit at the end of the day at least... Our predictions are send to our costumers between 8:30 – 9:30 New York time, before the market open... Try us for real..
