

## 10 December 2008

### Today's Calendar

| Date   | News and Events |                       |          |   |
|--------|-----------------|-----------------------|----------|---|
|        | Hour            | Detail                | Forecast | Our opinion   |
| 10-Dec | 10:35 USD       | Crude Oil Inventories | 1.0M     | If the news will show a higher value, it will be good for the markets (obviously if the value will be lower the market will sink) |
|        |                 |                       |          |   |
|        |                 |                       |          |   |
|        |                 |                       |          |   |
|        |                 |                       |          |   |

## Dow - weekly

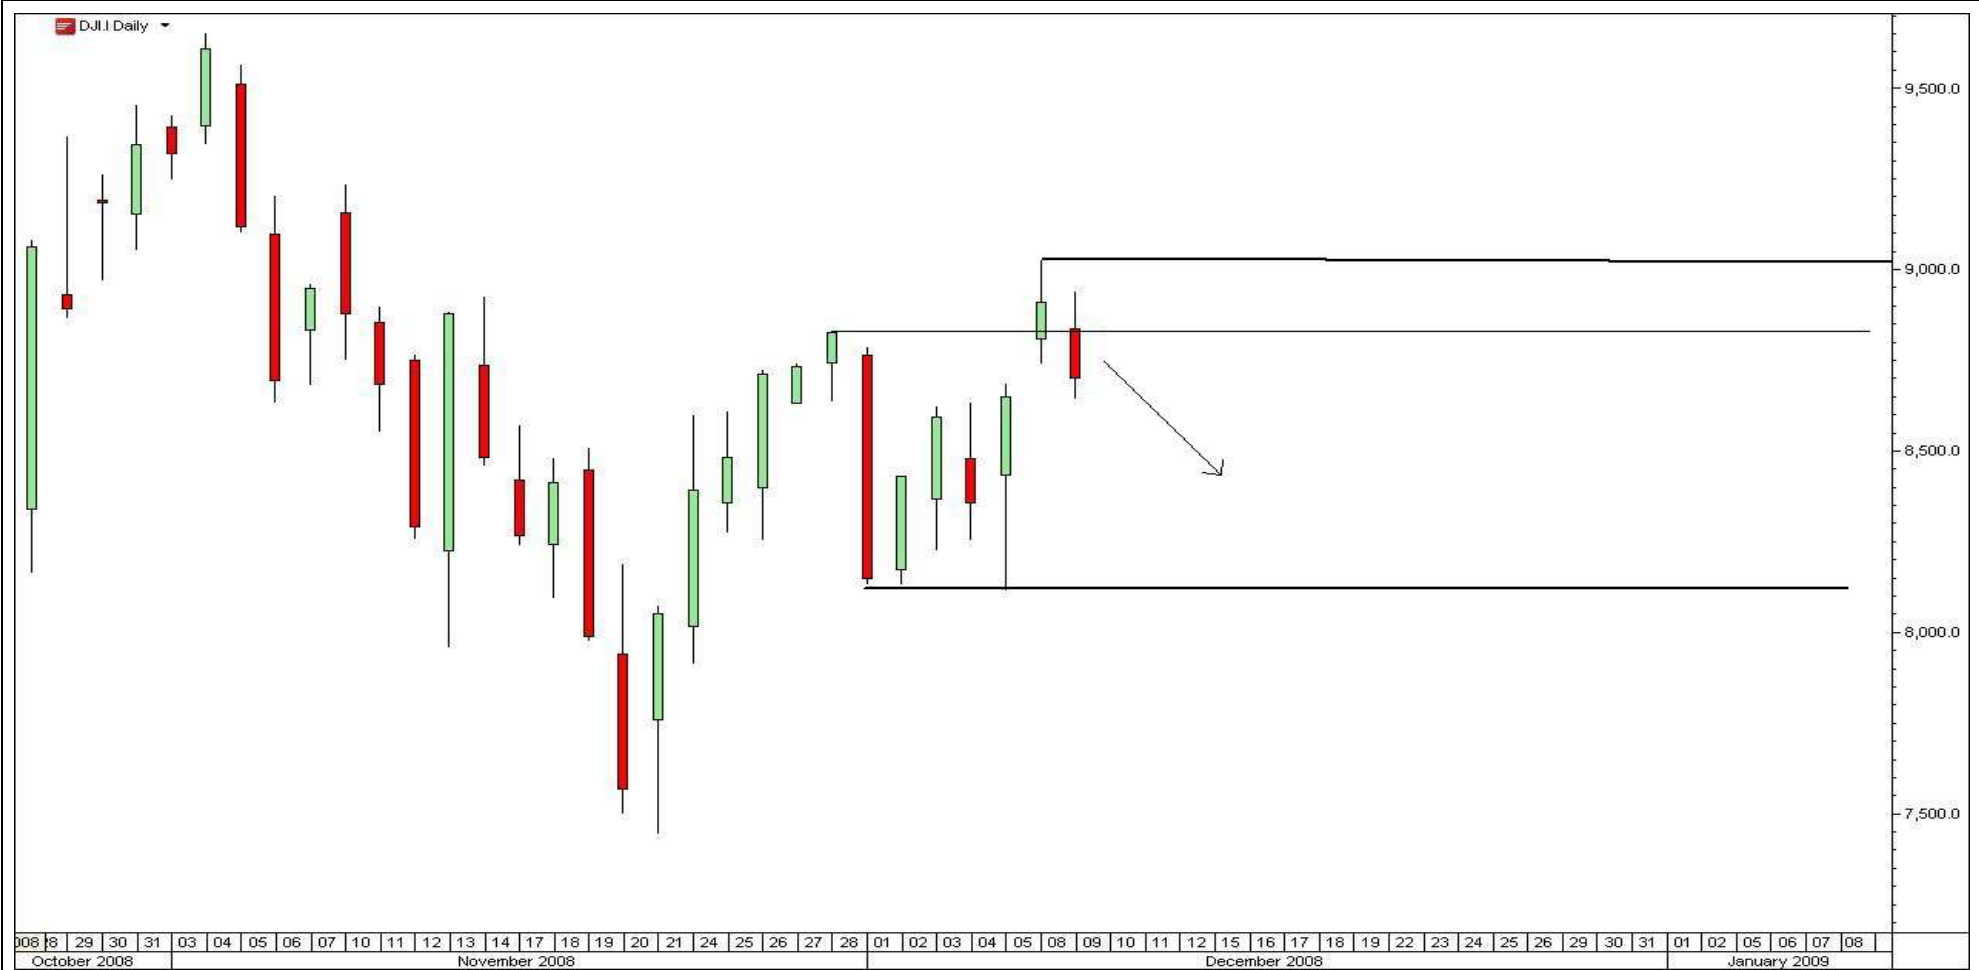

### Today's Description

This up trend can go to around 9000... We think that then the down move will resume to 8000 again...

**Dow - daily**

**Today's Description**      9000 must be a resistance for Dow right now... We should see a decline for 2-3 days... Reverse only Dow breaks 9050 points.

**Dow – 30 minutes**

**S&P 500 e-mini – 30 minutes**

**Today's Description**

Trade signals with Stochastic (5,3,3) ( for that see articles about technical analysis at <http://www.futureanalyzer.com/solutions.php> ) following our scenario for today...

Today's detailed description

| <u>Supports and Resistances</u> | <u>Time Turns</u> |
|---------------------------------|-------------------|
| 8950                            | 12:46 – TURN      |
| 8760                            | 13:36 – TURN      |
| 8650                            |                   |
|                                 |                   |
|                                 |                   |

Commentary

Here we can see a support area. Go short if breaks 8950 for 2-3 days at least.
