

## Dow Jones Industrial Average (DJI)

*Time Frame: 30 minutes*

### Today's Description

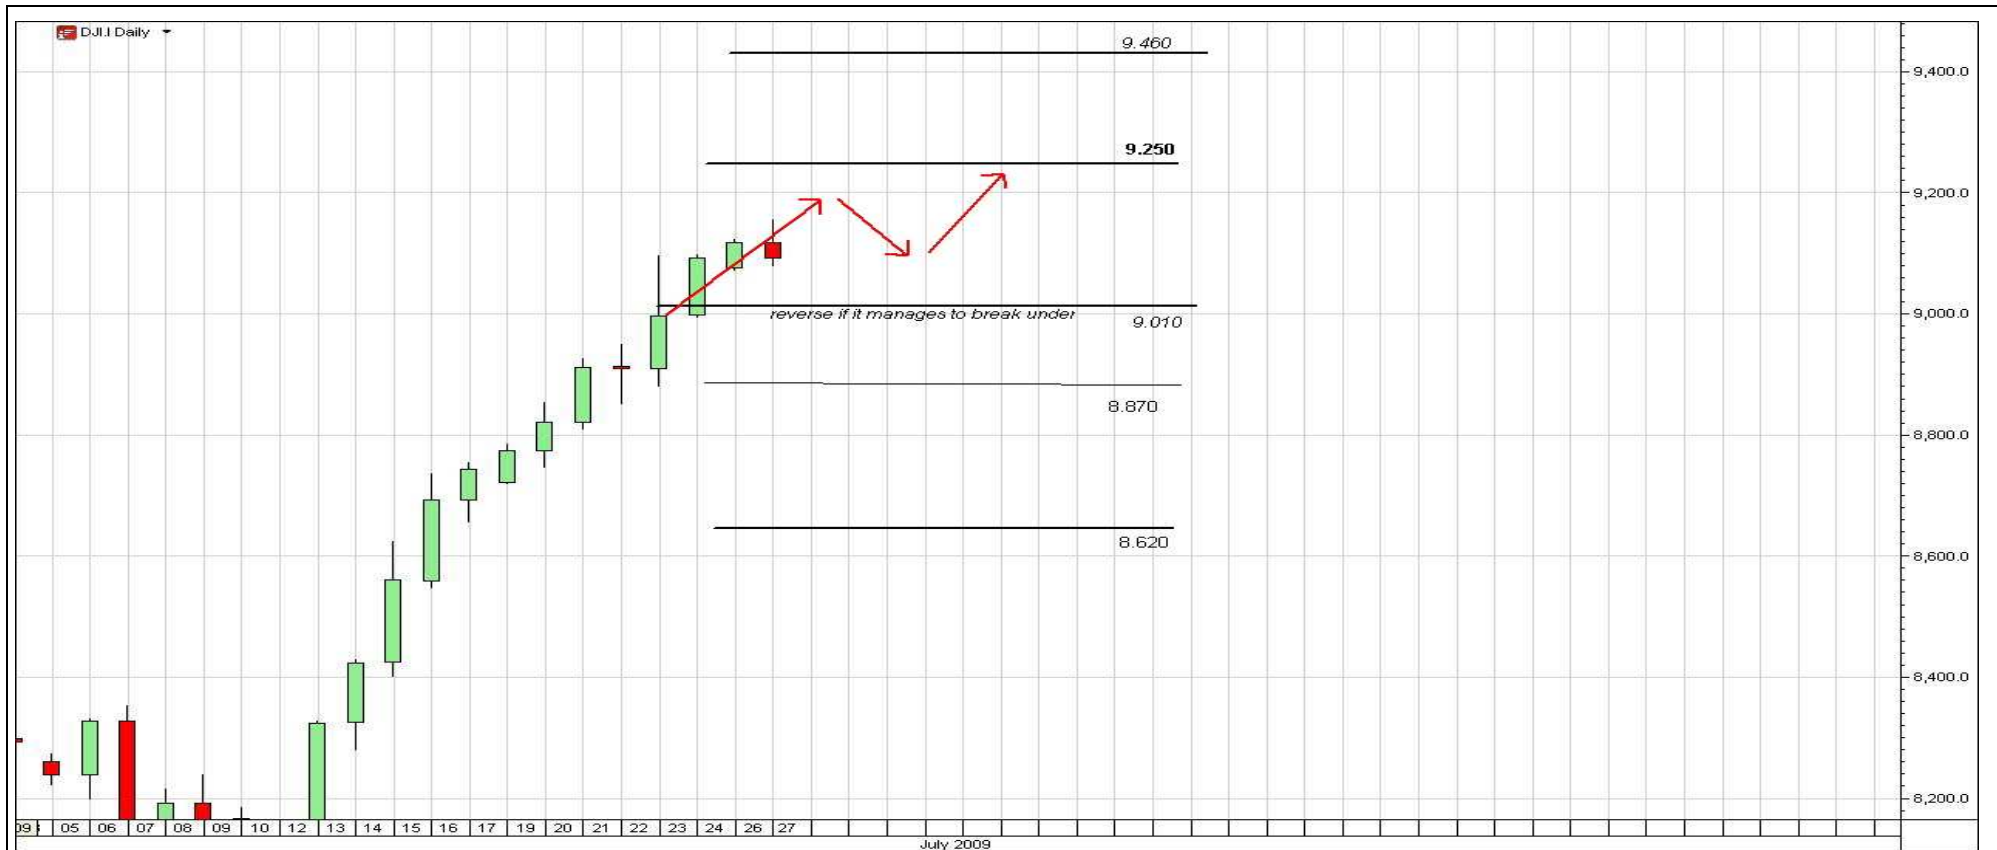

with red arrows is presented our prediction for today!

For today we see some good chances for an upward market, especially in the morning. In the afternoon (during last 1-2 hours) some recovery is possible. We have a resistance zone between 9.140-9.170. If Dow manages to break above this zone then 9.250 is a good target. First support is at 9.070-9.060 and then a strong one at 9.010. Under 9000 reverse and look for quick short trades.
