

Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

with red arrows is presented our prediction for today!

This upward move can continue during this trading session with little up and down moves. 8.370-8.400 should be a strong resistance (use a break out trade if manage to break above with 50 pips target). During second part of the day and in electronic session some downward moves should occur for 50-75 pips at least (to 8.250-8.270 support).

Today's Description

with red arrows is presented our prediction for next days!

It didn't broke 8.210 so we saw a little recovery. Above 8.400 forget to short the market. Try only long trades. But right now our main directions is still short and we should see a retest of 8.200...
