

Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

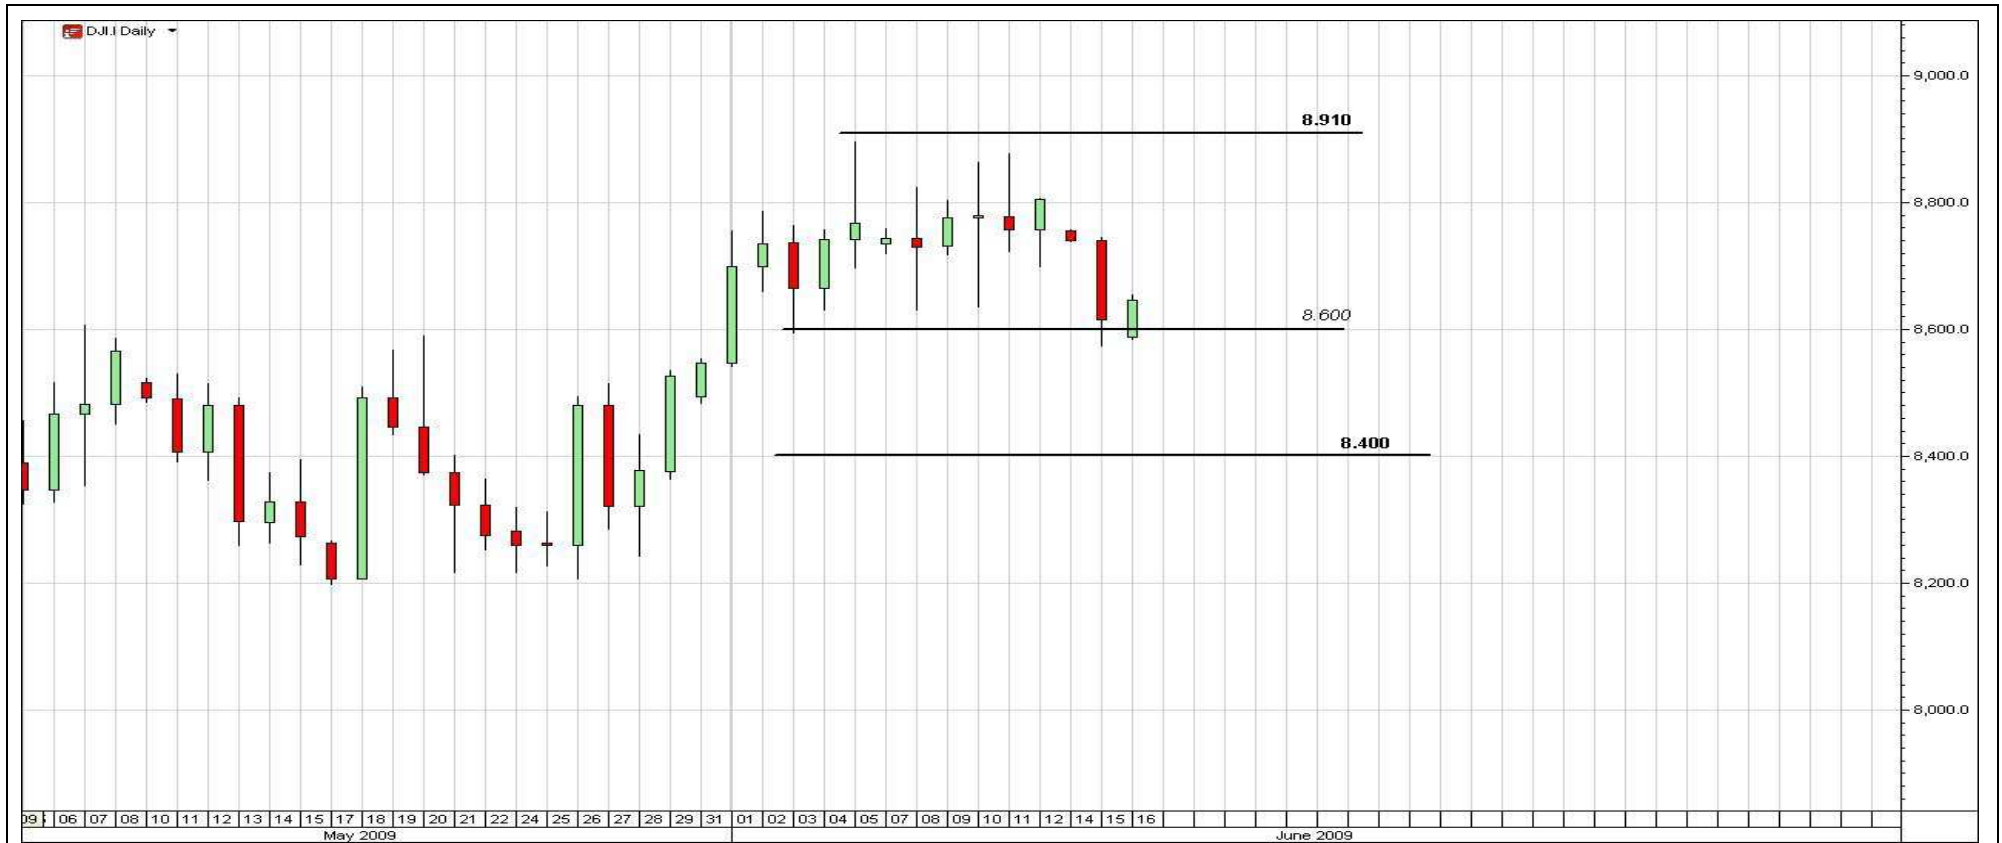

with red arrows is presented our prediction for today!

For today we see some sort of accumulation at this levels. We don't see anything important to move the market for today. So try only to scalp the market. If manages to break 8.710 follow it with quick LONG trades. *We want to alert you for tomorrow. 17th June seems to be a very special day. With big and violent moves. From beginning of the day expect to see important moves. If manages to break 8.550 then 8.400 should be the target. Above 8.710 expect 8.910!*

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

with red arrows is presented our prediction for next days!

Like we said, from 8.800 we should see some downward moves this week to 8.600 (first target) and then 8.550, 8.500 and 8.400 (maybe). After that the upward move should resume. Above 8.830 and especially above 8.910 expect only for upward moves.

Follow the market under 8.550 or above 8.830 and expect a strong move.
