Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

with red arrows is presented our prediction for next days!

Like we said, from 8.800 we should see some downward moves this week to 8.600 (first target) and then 8.550, 8.500 and 8.400 (maybe). After that the upward move should resume.

Until now our forecast for this week had been perfectly accomplished.
