*Time Frame: 30 minutes*

### Today's Description

with red arrows is presented our prediction for today!

After a very weak day, today we should see some little recovery at least to last support at 8.420. If breaks it then follow the market with 8.500 and 8.560 targets. Important support is at 8.360 (this should be a pivot point for today) and strong support zone is between 8.310 and 8.330. If breaks it then follow the market with 8.220 target.
