

## Dow Jones Industrial Average (DJI)

*Time Frame: 30 minutes*

### Today's Description

with red arrows is presented our prediction for today!

We see some sort of accumulation for today. You shouldn't expect to see any significant move. Accumulation between 8.400-8.500 with little up and down moves. Only in case of unexpected and strong news we can see some strong moves now but even this shouldn't occur today. If manages to go above 8.500 follow the market with 8.560 target.
