

Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

with red arrows is presented our prediction for today!

The big picture for today should be a downward move. But be prepared also for some sudden and unexpected moves! We can have some quick up and down moves followed by a downward move. Look for SHORT only under 8.830 for 8.700 first target and 8.600 second target. Above 8.830 look for quick long trades.
