

**Our yesterday's prediction:**

**Today's Description**

In above picture will post our last day analysis for Dow Jones on 30 minutes time frame. It is exactly our best scenario from yesterday. On the next page the chart will be filled with live data from yesterday's end session and we'll make a little analysis on it.

**Dow Jones live chart and trading ideas based on our yesterday's scenario:**

**Today's Description**

Our scenario was for some declines before the markets.. then up to that top area mentioned yesterday and declines at the end of the day... To be precise you could went for long and for short in the same time... +100 pips profit at the end of the day.
