

## Our prediction:

## What really happened:

### **Our comments**

We had a perfect scenario for yesterday again... SHORT at the beginning of the day for 50 pips profit. Then LONG from 8400 to 8500 like we said... We admit that not all the days are so perfect like this one... If no sudden news appear usually astrological aspects rules and our analysis is quite perfect. In days where suddenly appear a "strange" news some differences appears.
