### Today's Description

with red arrows is presented our prediction for today!

For today we see some possible up moves. We know, maybe it's a little strange after yesterday declines, but like we said from yesterday, today we should have some up day... If Dow breaks 8260 then do not consider long. Just try some quick short trades to 8200-8190. Above this level and especially after 12:00 o'clock consider long trades for 8350-8400 target.
