For today we don't see reasons for any important move... Some up/down moves. Accumulation. Low could be 8260-8200 zone. High 8360-8400 zone. You should buy lows and sell highs ( use [stochastic](#) or something like this to determine this levels). Follow the trend if DOW breaks any of this levels.

## Dow Jones Industrial Average (DJI)

*Time Frame: DAY*

### Today's Description

with red arrows is presented our prediction for next days!

Nice triangle we see there. With a low around 8100-8150 and a high around 8400-8450. First it's possible to see some retest of resistance and then of support... Expect 8100-8150 to see.
