

## Dow Jones Industrial Average (DJI)

*Time Frame: 30 minutes*

### Today's Description

with red arrows is presented our prediction for today!

we should see some quiet day today.. Some little up moves to 8400 then downward to 8300 – 8260. In the afternoon some declines are quite probable but because the market will be close and especially because Monday markets will be close (“Memorial Day”) it’s possible to see a “boring day”. Trade between this levels and try some breakout trades if manages to go above or bellow them (quite improbable).
