For today we have short signals... After a possible upward move in the beginning of the session, expect again downward moves. Support is at 9.660. When it will be break look for 9.590-9.570 area. Resistance zone is again near 9.850.

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

Like we said, a break of 9.890 will represent a fall of more than 150 pips...

Now look for some little retreat from 9.730 followed by another fall. Next good target is 9.570.
