

Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

Today we have support at 9.850. Resistance is at 9.910 and 10.000. Above 9.910 is the "BUY area". If during live session Dow goes above 9.910 then try quick LONG trades with 9.970-10.000 target. Under 9.850 is the "SELL area". Under it consider only SHORT trades to 9.800 and maybe more... Anyway, for today we expect a silent day, with narrow fluctuations.

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

Dow broke 9.850 so now you should be LONG with 10.000 target and SL near Break Even (BE). At 10.000 close half of positions and wait with the rest.

Our analysis gives some short signals but until Dow shows some weak signs, you should be with the current trend.
