Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

Look for some up and down moves between 10.000 and 9.890 today... Some upward moves in the first part, downward moves in the second part and possible some recovery latter in the day. Use break out trades if Dow manages to break any of this levels and follow the market for 40-50 pips profit.
