## Dow Jones Industrial Average (DJI)

*Time Frame: 30 minutes*

### Today's Description

With red arrows is presented our prediction for today!

For today look for some accumulation between 10.060 and 10.120. These are the most important support and resistance levels for today. When Dow manages to break 10.120 then look for a break out trade for 40-50 pips. Next resistance will be 10.200. Under 10.060 strong support is at 10.000, of course.

Between 9.900 and 10.120 there is an accumulation zone for Dow. Now, the sentiment is long and it will try again to break 10.120. When it will do so, then follow it to the next resistance.
