Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

After some little downward moves in the morning we should see a rising market in the second part of the day. So, try some LONG trades. Be careful at 9.450 (under this level it will be a little hard for Dow to recover).

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

9.650 was brooked! The sentiment is negative so keep the SHORT trade opened. 9.400 is a good support to close half of positions and 9.250 to close the second half. After closing the first half move the SL on BE.
