## Dow Jones Industrial Average (DJI)

*Time Frame: 30 minutes*

### Today's Description

With red arrows is presented our prediction for today!

For today we have some strong resistances at 9.580 and 9.700. Support is at 9.450.

During morning (first hour) some upward moves are possible up to the resistance. After that expect some downward moves of at least 50-75 pips. A recovery is possible in the afternoon.

## Dow Jones Industrial Average (DJI)

Time Frame: DAY

### Today's Description

9.650-9.700 should be a very strong resistance. Dow can try several times more to break this level but it's very possible that it will not succeed and because of that we can see some downward moves back to support level (9.250).

With red arrows is presented our prediction for next days!
