Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

9.650-9.700 had been a resistance zone for 5 days now. Dow tried some downward moves to 9.450 but had stopped only at 9.500 on Monday. Right now, because Dow managed to break 9.700 we are a little conservative about shorting the market. Now try some quick trade based on the intraday moves. Only when Dow will break again 9.650-9.600 zone look for a consistent SHORT trade!
