

Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

For today we have a strong resistance at 9.850 and support at 9.720. Pivot is at 9.780 and near it we should see some moves today - some fluctuation in this area. Follow the market if manages to break 9.720! and reverse if break above 9.850...

For tomorrow we expect a red day with downward moves developed even from tonight in electronic session. 9.650 can be a good target.

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

9.850 seems to be some sort of top right now. Only above it reconsider LONG trades with 10.000 target. Under this level (9.850), consider some sort of accumulation (between 9.650-9.850). So, SELL near the top and BUY near the bottom.
